

September 16, 2015

The Honorable
United States House of Representatives
Washington, D.C. 20515

Dear Representative,

On behalf of our 500,000 members nationwide, Concerned Women for America Legislative Action Committee (CWALAC) wishes to express our support for the Defund Planned Parenthood Act of 2015, H.R. 3134. This legislation would stop funding to Planned Parenthood for one year while the House investigates the organization in light of the recent Center for Medical Progress' (CMP) videos.

Planned Parenthood's willingness to inhumanely crush babies for their brains, lungs, and hearts while callously bargaining to line their own pockets has shocked the consciences of Americans. Planned Parenthood's depraved practices are only the latest revelation of what we have been saying for years – taxpayers should not be forced to subsidize this corrupt and immoral organization.

The videos also raise serious concerns that Planned Parenthood may be violating several laws: the Partial-Birth Abortion Ban, the Born-Alive Infant Protection Act and fetal tissue trafficking. Planned Parenthood's Senior Director of Medical Services even said that the Partial Birth Abortion Ban was open to interpretation. Taxpayer money should not go to an organization that shows contempt for our laws.

Planned Parenthood's actions show the organization only cares about money and not the health and well-being of women and their babies. With the ever-growing list of scandals plaguing Planned Parenthood, it is way past time to stop the federal government's complicity in this abhorrent organization.

For these reasons, Concerned Women for America Legislative Action Committee urges Members of Congress to support the Defund Planned Parenthood Act of 2015 and will include a vote in favor of this legislation in our annual scorecard. We support all efforts to oppose funding for this despicable organization.

Sincerely,

Penny Nance
Chief Executive Officer and President
Concerned Women for America Legislative Action Committee
